

HEALTH AND SAFETY PRECAUTIONS

When entering the restaurant, registration with the LUCA app is required as well as proof of recovery, complete vaccination or a negative rapid test result. The rapid test result should have been carried out max. 24 hours before the visit to the restaurant. FFP2 face masks may be removed at the table.

Comprehensive basic cleaning and disinfection with proven virucide effectiveness are standard.

The disinfection of our tables and chairs is a matter of course. We guarantee you a very clean and therefore safe stay in the restaurant.

All employees wear protective masks both in front and behind the scenes. For your personal use, protective masks can be purchased at the reception desk.

Our employees are sustainably trained in their field of activity and are informed about changes on a daily basis.

Regular checks and adjustments are carried out by our external safety and hygiene officer.

During your stay with us in the restaurant, please maintain the required minimum distance of 1.5 meters to guests and staff.

Ideally, sneeze and cough into the crook of your arm or into a disposable handkerchief and dispose of it immediately.

Please wash your hands regularly. We have provided disinfectant and soap throughout the hotel and restaurant. If possible, do not touch your eyes, nose or mouth.

FACIL

We recommend that you use your EC or credit card as means of payment (preferably contactless) to minimize personal contact.

If you show symptoms of respiratory disease, you will unfortunately not be allowed to enter our premises.

For further questions please contact our restaurant team.
